# Policy Descriptions

## **Trendsetter<sup>SM</sup> Super Series**

Trendsetter Super 10, 20, and 30 are level death benefit term life insurance policies guaranteed renewable to age 95. The premiums are guaranteed level for the first 10, 20, or 30 years, respectively. Premiums increase annually until age 95 once the original level premium period ends.

## **Trendsetter<sup>SM</sup> ROP 30**

Trendsetter ROP 30 is a level death benefit term life insurance policy guaranteed renewable to age 95. The premiums are guaranteed level for the first 30 years, then premiums increase annually until age 95. It has a return of premium feature which returns the eligible paid premiums, excluding substandard premiums, rider premiums, outstanding loans, and any loan interest due, at the end of the level premium period.

The return of premium feature is represented by a guaranteed cash value schedule in the policy. Cash values are a percentage of the accumulated base premiums paid, excluding substandard or rider premiums. Cash values begin in year 4 and will endow on the 30th policy anniversary, subject to the terms of the policy. The amount returned to the owner equals the net cash value. The net cash value equals the cash value less any policy loans and a percentage proportional to any premium waived under Waiver of Premium.

Policy loans, including automatic premium loans, are available against the cash value. The cash values do not provide any additional death benefits. If the insured should die during the level premium period, only the policy face amount is paid.

Changes to the risk class or face amount are not allowed once the policy is in force.

## Policy Fees

The policy fee for the Trendsetter Super Series products is \$75. There is no policy fee for the Trendsetter ROP 30 product.

Commissions are paid on policy fees.

## Nonguaranteed and Guaranteed Premiums (Definition)

There are two schedules of premiums for all Trendsetter products: Nonguaranteed Premiums and Guaranteed Maximum Premiums. Each product has its own set of schedules. The Nonguaranteed Premiums are always less than or equal to the Guaranteed Maximum Premiums for the same attained age.

Guaranteed attained age ART premiums are available on the illustration system. Nonguaranteed attained age ART premiums are provided in the policy. ART premiums are those premiums due after the initial level premium period.

## Options, Endorsements, and Riders

This is a brief description of the policy options and riders that may be available with the Trendsetter products. It is not intended to replace the descriptions, definitions, limitations, and exclusions contained in options, riders, or base policy contract forms.

For a more precise description of policy features and the availability of options and riders, please consult the specific policy contract.

### **Accelerated Death Benefit**

The Accelerated Death Benefit is included on Trendsetter products. This benefit provides up to 75% of the current death benefit to a maximum of \$250,000 per life, with a minimum payment of \$10,000. This option may be exercised after the insured has been diagnosed and certified as having 12 months or fewer to live from the date of the physician statement. A physician must have made the diagnosis after the date the policy was issued.

Benefits advanced under this option may be taxable.

### **Automatic Premium Loans (Trendsetter<sup>SM</sup> ROP 30 only)**

Policy loans, including automatic premium loans, are available against the cash value. The cash values do not provide any additional death benefits. If the insured should die during the level premium period, only the policy face amount is paid.

## **Conversion Rider**

The Conversion Rider allows the policy owner to change his or her Trendsetter policy to a level face amount permanent life insurance policy that is made available by Transamerica Life (Bermuda) Ltd. at the time of the exchange. No underwriting will be required if the exchange is to a permanent policy with the same or lower face amount. The new policy will be issued at the same class of risk as the in-force policy, if available. If such a class is not available at the time of conversion, the new policy will be issued at the class of risk that is most similar to the class of risk of the in-force policy. Actual premiums on this new policy will be based on the schedule in effect when the option is exercised. (To qualify for a better class of risk, full underwriting evidence may be required.) This option must be exercised no later than the earlier of the end of the level premium period or the insured's 70th birthday.

### **Issue ages:**

18 to 65 for the Trendsetter Super Series products, 18 to 50 for the Trendsetter ROP 30 product.

*(Not available if rated over Table D. Must be purchased when the policy is issued.)*

### **Premiums:**

Premiums vary by plan, sex, and smoker status. Premiums remain level for the duration of the rider.

The rates are on the illustration software and in this guide.

Upon exercise of this option, full first-year commissions will be paid on the new policy.

## **Waiver of Premium (WP) Rider**

In the event of total disability before the insured's 60th birthday and after a waiting period of 6 months, premiums will be waived retroactively from the beginning of the disability. Premiums will continue to be waived for the duration of the total disability.

Among other reasons, premiums will not be waived if the disability results directly or indirectly from intentionally self-inflicted injury(ies), from participation in insurrection, or from war or any act of war.

### **Issue ages:**

18 to 55 for the Trendsetter Super Series products, 18 to 50 for the Trendsetter ROP 30 product.

Double this additional amount is payable if the accidental bodily injury occurs while the insured is a fare-paying passenger on a common carrier. ## Modes and Modal Factors

Modes	Modal Factor Trendsetter <sup>SM</sup> 10, 20, 30	Modal Factor ROP 30
Annual	1.000	1.000
Semi-Annual	.520	.500
Quarterly	.265	.250
Autopay Quarterly	.260	.250
Monthly <sup>2</sup>	.092	N/A
Autopay Monthly	.0875	.08333

<sup>2</sup>Direct monthly is allowed only for annual basic premiums of \$1,000 or more, excluding policy fees, substandard extras, all riders, and additional benefits. For ROP 30 in Singapore, Autopay Quarterly and Autopay Monthly are not available. Those premium modes are Hong Kong only.

# How To Calculate Premiums

The annual premium is calculated by multiplying the premium rate for each portion of the policy (plan premium plus substandard extra or flat extra premium plus any rider for which a premium is charged) by the number of \$1,000 of face amount or the number of units of coverage. The policy fee is then added to this amount to give the annual premium.

If the applicant wishes to pay the premium on a payment mode other than annual, the modal factor shall be applied. Multiply the annual premium by the modal factor to arrive at the premium amount for the desired payment mode.

## Calculation Example for a Policy Mode other than Annual:

Substandard Table extra premiums are the same for all products. They are obtained by taking percentages of the standard rate according to the table below:
